

VII.
MEMORIJAL
MIRKA MIOČIĆA
ZADAR 2023.

POINTS:

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25					

TABLE:

NAME: _____

1. In <i>North by Northwest</i> , we see him missing a bus during the opening title sequence. In <i>Vertigo</i> , he is walking across the street with a trumpet case. In <i>The Birds</i> , we see him leaving the pet shop with two of his own terriers, just as Tippi Hedren enters. Who is this?	
2. At any given time, only two monks know the recipe for which liqueur , based on a centuries-old recipe consisting of over one hundred herbs and plants?	
3. In 2018, which Emirati princess escaped from Dubai with the assistance of her capoeira instructor, Tiina Jauhiainen? She was recaptured at sea and resurfaced years later in a series of possibly-staged photo ops.	
4. Which ancient <u>Greco-Roman term</u> names a picture gallery ? The term is used for major art galleries in Milan (the Brera), at the Vatican, and in São Paulo.	
5. *In 2022, archaeologists discovered 168 new geoglyphs in present-day Peru that had been made by which society between 100 BCE and 300 CE? While this society is most famous for their "line" geoglyphs, many of the newly found geoglyphs are shapes in relief, like the cat seen here.	
6. The first three editions of the World Nomad Games – in 2014, 2016 and 2018 – were held in Cholpon-Ata, a resort town in which Central Asian country ?	
7. Victoria Peak was earlier thought to be the highest peak in Belize. But new measurements have showed that another mountain is higher. The name of this mountain is inspired by the novel <i>The Lost World</i> , where Belize is referred to as a "wild and wonderful country". What is the suitable alliterative name of this mountain ?	
8. Up!, Polo, and Taigo are three current car models by which manufacturer ?	
9. Simply meaning <i>the Plains</i> in Spanish, what is the name of the large tropical grassland plain in Colombia and Venezuela, east of the Andes Mountains?	
10. MAPK and JAK are some of the many examples of which types of enzymes , whose purpose is to phosphorylate amino acids to render proteins active or inactive?	
11. Which archaeological culture in Central Europe, dated ca. 2300–1600 BC in the Early Bronze Age, is named after a village in the Prague-West District in the Czech Republic?	
12. Matsuo Bashō, 1644–1694, is generally regarded as the master of which type of poetry , consisting of seventeen syllables, typically evoking images of the natural world?	
13. In 1947, Edwin Land introduced which product, the first instant camera ? Contrary to Outkast's instructions, shaking the resulting photographs does not help them develop more quickly and may in fact damage the final prints.	
14. Shakira, Maluma, and J. Balvin all hail from which South American country ?	
15. In the critically acclaimed Netflix documentary <i>My Octopus Teacher</i> (2020), the naturalist and filmmaker Craig Foster forges an unusual friendship with an octopus living in a kelp forest near the coast of which country ?	

16. Which extinct mollusc , related to modern-day cephalopods and particularly associated with the site of Lyme Regis where Mary Anning lived and worked, are considered ideal index fossils, because they are easy to identify, only existed for a relatively narrow portion of the Late Paleozoic and the Mesozoic Era, and are geographically widespread?	
17. Pope Alexander VI, whose papacy began in 1492, was a prominent member of which noble family ? Two of his children were Cesare and Lucrezia.	
18. Which 17 th century literary character's "golden helmet" is actually a brass basin that belonged to a barber?	
19. *In which year was this iconic photo taken?	
20. In video game speedrunning, what term designates runs that may use whatever means enable players to complete a game as quickly as possible, even if this means that many parts of the game are not played?	
21. *What is the name of this character in Game of Thrones, portrayed by Carice van Houten? She is also nicknamed "the Red Woman".	
22. Which contemporary jazz bassist and singer curates the ongoing project Songwrights Apothecary Lab: part training workshop for students and part collaborative creative project for the development of songs, or "Formwelas"?	
23. Which city in the Middle East is considered among the holiest places in the Bahá'í faith, as it is the home of both the Shrine of the Báb and the Universal House of Justice?	
24. Which largest satellite of Neptune is the only large moon in the solar system with a retrograde orbit (i.e., it orbits in the opposite direction of its planet's rotation)?	
25. *Shown here is the 1986 issue of Rolling Stone that was the magazine's first to feature a hip-hop group as the cover artists. Which group's name has been redacted?
